## PROFILE

I am a freelance London based Television Cameraman who's been working successfully for broadcast productions for over 8 years, shooting a diverse range of programme types including; sport, factual, documentary, entertainment, reality, music & news. My diversity has meant I've become a very versatile operator, working regularly for various crewing and production companies, working on Outside Broadcasts & multi-camera jobs as well as one man PSC shoots, in the studio and on location. Though based in London I work all over the UK and have filmed on many overseas shoots & OB's. I'm comfortable operating on all major video formats as well as hand-held operation and big lenses on OB's.
